WEALTH OF SENATORS

Oliver and Dupont Give Inventories at the Lobby Query—Lobbyists Will Be Subpoenaed to Tell of Their Activity Among the Senators

Washington, June 6.—Acting Chairman Reed believed that the investigation would be able to turn the light upon some of the so-called lobbyists subpoenaed before the adjournment today.

Senator Reed was convinced that the committee is on the right trail at last, and that from some of the men who have been summoned it will be able to extract information confirming President Wilson's lobby statement.

Senator Reed announced he would ask the senate for an indefinite extension of time for the holding of hearings.

Senator Oliver, owner of one thousand shares of preferred stock in the United States Steel corporation, told the committee he did not expect the tariff in any way to affect its value. "I have always held that insofar as the iron and steel schedule of the tariff is concerned, the United States Steel corporation is very much less subject to menace than would small manufacturers be to a change in rates," said he.

In addition to the steel stock, Senator Oliver said he had an investment of \$1,600,000 in two Pittsburgh newspapers and 7700 preferred shares and about fifty common shares in the Pittsburgh Coal company, whose product might be affected by the tariff.

"I never sought to influence any senator in regard to the tariff on any of the articles in which I am concerned," said he. "Nor has any one sought to influence me improperly."

Persons who had called on him included W. C. Claus, W. S. Strassburger, A. F. Gaffney, Edward E. Marshall, Arthur B. Davis, John H. Pen-

ny, Collin Livingstone and W. L. Kann. Senator Oliver declined to give his investment in copper or in other lines that he said were not affected by the tariff or other legislation before congress.

"I am perfectly willing to give the public an inventory of everything I own," he said, "but I don't think the purpose of this investigation is to secure an inventory of every senator's property."

Senator Oliver said he knew of no steel lobby and no representatives of the steel interests maintained in Washington on tariff or other questions.

Senator Dupont of Delaware said he owned several farms, 1000 shares in the Pennsylvania Steel company, 1000 shares in the Cambria Steel company, 1000 shares in the National Biscuit company, and no powder stock.

"When I came to the senate I had a small amount of stock in the Dupont Powder company but I disposed of that long ago," said he. "I have never felt it proper however, for me to take part in any debates in the senate involving powder questions or to talk with senators about the subject."

Senator Dupont said that though he was a member of the senate military committee, the committee had acted without his co-operation upon legislation concerning powder.

Senator Thomas said he had declined to take part in consideration of the lead and zinc provisions because of his mining interests, which include \$3700 worth of stock in the Del Monte Leasing company, \$80,000 worth in the Volunteer Mining company and \$100,000 in the Creed Mines company, Limited.

Senator Thomas said the only remark to him that might be considered "improper" came from Henry T. Oxnard, who represented beet sugar interest opposed to free sugar. When he told Oxnard he probably would vote with his party in support of the Underwood bill, Oxnard replied that if the free sugar provision were retained, congress would "be here until the snow flies" before the bill could be passed.

There had been a persistent effort to influence his action on sugar, wool and lead, Senator Thomas said, through a great number of letters and telegrams from Colorado and the Rocky Mountain states.

"This correspondence has been so general, so almost universal in my state," said he, "that I am satisfied it is the result of organized efforts, inspired and the expense paid for by

interests directly concerned in the rates of the tariff bill."

SHOP FOREMAN USES A GUN

After being attacked by William P. Bramwell at the Carnival grounds last evening, George Allen, foreman at the Southern Pacific shops, drew a revolver and fired. Allen claims the revolver was fired in the air to frighten Bramwell, but Mrs. Bramwell declares the shot struck the ground at her feet.

Bramwell's discharge from the shops by Allen is said to have been the reason for the attack.

Immediately after the firing of the revolver, Allen went to the police station and gave himself up. No charge was made against him and no charge will be made unless Bramwell makes out a complaint.

WORLD'S MARKETS

WALL STREET.

New York, June 6.—There was a strong demand for stocks at the opening today and the market rebounded sharply from its recent decline. Large buying orders for the important stocks were executed and practically the whole list showed gains. Erie, Amalgamated, Union Pacific, Utah Copper, Can and Western Maryland rose a point and Canadian Pacific 2 1/2. There were a few weak spots. American Car and Stross Sheffield sold down a point. The petroleum stocks were all so weak and California Petroleum receded 1 1/4.

Irregularity and lower prices resulted from realizing sales, but the market soon steadied and went higher than at the opening.

Can and other low-priced shares were heavy which restrained the improving tendency of the leading issues.

In spite of the appearance of strength lent by the brisk demand and general rise during the early trading, the market was not immune from further disturbances and toward the close of the forenoon there was a renewed outburst of selling. Prices were borne down swiftly below yesterday's close and a number of new low records for the long decline were reached.

General speculative conditions were little changed and traders were disposed to attribute the early improvement to a temporary oversold condition. Isolated points of weakness appeared, while the market was forging upward and the cumulative effects of these scattered declines ultimately was a factor in bearing down the whole list.

Bonds were heavy.

For a time after midday the list broke badly, Atchison, Chesapeake & Ohio, Lehigh, Southern Pacific and Steel selling from 1 to 2 points under yesterday's closing.

Severe declines were also made in a long list of obscure shares. Scale buying orders then began to make their presence felt and the list eventually rallied a substantial fraction with, however, a large contraction in the volume of business on the rise.

Accumulation went on steadily in the afternoon and the persistence of the demand compelled heavy short covering. Canadian Pacific sold 3 points above yesterday's final level.

Recoveries from the lowest reached a point or more in many places.

Burts'

There was also adverse weather in France and England. Smallness of Argentine shipments also counted against the bears. The opening was 1-4 to 5-8c higher. July, which started 1-4 to 1-2@5-8c up at 90 1-4c to 90 1-2c@90 5-8c, rose to 90 7-8@91c.

Corn strengthened with wheat July, at the outset was unchanged to a shade firmer at 58 5-8@58 3-4 to 58 3-4, and then ascended to 59 1-8c.

In the oats crowd there were no offerings. July after opening 1-8@1-4 to 1-4@3-8c higher at 38 3-4 to 38 7-8c, climber to 39 1-8@39 1-4c.

Packers buying carried provisions up. First sales were at 2 1/2 to 10c advance, including September options as follows:

Pork, \$19.80@19.82 1/2.
Lard, \$11.10.
Ribs, \$11.25.

Wheat—Reports that much of the wheat is dead in supposedly good parts of Kansas hardened prices, yet more profit taking caused a setback. The close was firm, July 7-8@1c net higher at 90 7-8@91c.

Corn—Afterward prices reacted owing to increased rural deliveries. The close was steady at 58 3-8c for July, a shade above last night.

Sugar.

New York, June 6.—Raw sugar—Steady. Muscovado, \$2.80@2.83; centrifugal, \$3.30@3.33; molasses, \$2.55@2.58. Refined, steady.

PARTNERS WITH THUGS

New York, June 6.—Scathing arraignment of the detective bureau of the New York police department and the charge that a partnership exists between some detectives and criminals are contained in the Current Report on police conditions.

"Benjamin Levy," says the report, "who had never been convicted of a crime," testified that at the request of officials in the detective bureau, he had often induced criminals to commit burglary in order that they might be arrested. He was strongly corroborated by reputable citizens, including an official of an insurance company, a merchant, and others.

Levy testified that in one case Deputy Commissioner Dougherty, in charge of the detective bureau, gave him \$25 with which to purchase burglary tools and after he succeeded in the burglary paid him \$75 for his services. City vouchers for these amounts in Levy's favor were found, according to the committee's report.

The report says the bureau is hopelessly inefficient and should be reorganized along drastic lines.
